

DANIELLE BOSWORTH

PRODUCT & AI | CUSTOMER EXPERIENCE | OPERATIONS & SYSTEMS

South River, NJ • (732) 421-4944 • contact.madebydanielleb@gmail.com • [linkedin.com/in/daniellebosworth](https://www.linkedin.com/in/daniellebosworth) • [madebydanielleb.com](https://www.madebydanielleb.com)

PROFESSIONAL SUMMARY

Cross-functional product and AI professional with more than a decade of customer-facing and operational leadership experience. Combines psychology, product design, business strategy, and hands-on AI implementation to turn customer needs and fragmented workflows into clear product concepts, scalable knowledge systems, and measurable business improvements. Experienced in product discovery, user research, human-in-the-loop AI experiences, information architecture, analytics, and cross-functional execution.

CORE CAPABILITIES

Product & AI: Product discovery • Product strategy • Requirements definition • AI-assisted workflows • Human-in-the-loop design • Explainability • Prompt design | **Customer & Research:** UX research • Voice of Customer • Journey mapping • Service design • Usability testing | **Operations & Business:** Workflow optimization • Knowledge management • Analytics • Project coordination • Cross-functional collaboration

PROFESSIONAL EXPERIENCE

Product Specialist & Marketing Coordinator | Magic Sleek | Manalapan, NJ | May 2025 – Jun 2026

- Collaborated across leadership, product education, sales, customer support, marketing, and operations to identify customer friction and translate business needs into clearer workflows, enablement resources, and technology-enabled improvements.
- Designed and implemented an AI-powered knowledge assistant that centralized product, customer, and operational information, providing fast access to consistent answers and recurring procedural guidance.
- Analyzed customer inquiries, distributor feedback, operational and digital performance data; developed Tableau reports, SOPs, onboarding collateral, troubleshooting frameworks, presentations, and customer education.
- Supported distributor development and cross-functional sales enablement, contributing to a **\$56,000 initial distributor order** while coordinating e-commerce, education programs, national trade shows, and vendor relationships.

Product Design Extern | MissTeePRO / Rutgers MBS Externship | Remote | Jan 2025 – May 2025

- Conducted customer, market, and competitive research in curly and coily haircare, synthesizing category trends, product claims, ingredients, and unmet consumer needs into product opportunity and positioning recommendations.
- Built a relational Airtable knowledge system for ingredient and formulation research, improving comparison, filtering, retrieval, and evidence-based product-development discussions.

Hairstylist / Cosmetologist | The Art of Hair | Old Bridge, NJ | Aug 2021 – Jan 2024

- Built high-retention client relationships through personalized consultation and created targeted digital content that increased service bookings by approximately 20%.

Branch Manager | G & C Robins Co. / Supercuts | East Windsor, NJ | Jun 2018 – Jul 2021

- Led high-volume operations, staffing, coaching, service recovery, scheduling, and customer experience; CRM-driven outreach increased client retention by **32%**.
- Improved workflows, staff performance, local outreach, and customer engagement, scaling monthly location revenue from approximately \$4,000–\$5,000 to more than \$20,000 within 13 months (**4x+ increase**).

SELECTED PRODUCT & AI PROJECTS

Vocari | AI-Assisted Career Development Platform (2026) — Led product development from research and information architecture through prototyping and usability testing; designed a 35-career knowledge library, Profile DNA experience, conversational feedback loops, explainability patterns, privacy controls, evidence verification, and user-controlled refinement.

Joomla Extension Directory | Information Architecture & Discovery Redesign (2026) — Conducted 4 stakeholder interviews, 2 surveys, heuristic evaluation, and competitive analysis; developed evidence-based recommendations for semantic discovery, weighted ranking, standardized metadata, filters, comparison, and trust signals within real platform constraints.

EDUCATION

Master of Business and Science (MBS), Product Design & Innovation | Rutgers University | Expected Dec 2026 | GPA: 3.7

Bachelor of Arts, Psychology; Minor in Sociology | Rutgers University | 2023
