

# DANIELLE BOSWORTH

PROJECT COORDINATION | OPERATIONS | CROSS-FUNCTIONAL EXECUTION

Central New Jersey • [contact.madebydanielleb@gmail.com](mailto:contact.madebydanielleb@gmail.com) • [linkedin.com/in/daniellebosworth](https://www.linkedin.com/in/daniellebosworth) • [madebydanielleb.com](https://www.madebydanielleb.com)

## PROFESSIONAL SUMMARY

Cross-functional project and operations professional with experience coordinating schedules, stakeholders, vendors, documentation, events, customer programs, and concurrent initiatives across fast-paced environments. Skilled at keeping work moving across teams, tracking details and deadlines, organizing information, resolving operational issues, and translating changing requirements into clear next steps. Combines hands-on business operations experience with graduate training in product design, systems thinking, project management, and data-informed decision-making.

## CORE COMPETENCIES

Project Coordination • Cross-Functional Communication • Schedule & Deadline Management • Stakeholder Coordination • Vendor & Supplier Communication • Project Documentation • Status Tracking & Reporting • Risk & Issue Identification • Process Improvement • SOP Development • Meeting & Event Coordination • Customer & Partner Operations • Data & Record Management

## PROFESSIONAL EXPERIENCE

**Product Specialist & Marketing Coordinator | Magic Sleek** | Manalapan, NJ | May 2025 – Jun 2026

- Coordinated concurrent initiatives across operations, marketing, education, customer service, sales, distributors, vendors, and leadership, balancing changing priorities, deadlines, and stakeholder needs.
- Planned and coordinated professional education programs, certification classes, product demonstrations, national trade shows, and virtual and live events, including schedules, communications, materials, shipping, logistics, and follow-up.
- Served as a central point of contact across internal teams, educators, distributors, salon partners, and vendors to resolve issues, communicate updates, and keep activities moving toward completion.
- Introduced Notion-based workflow and documentation systems to improve project visibility, asset organization, SOP management, knowledge sharing, and consistency across recurring processes.
- Monitored customer, distributor, and operational issues to identify recurring risks and friction points, then coordinated clearer documentation, troubleshooting resources, communication, and process improvements.

**Product Design Extern | MissTeePRO / Rutgers MBS Externship** | Remote | Jan 2025 – May 2025

- Coordinated customer, market, competitor, ingredient, and formulation research workstreams and synthesized findings into structured recommendations for product-development decisions.
- Built and maintained a relational Airtable research system that organized large sets of technical information for faster filtering, comparison, retrieval, and stakeholder use.

**Branch Manager | G & C Robins Co. / Supercuts** | East Windsor, NJ | Jun 2018 – Jul 2021

- Managed high-volume daily operations, staff scheduling, service quality, customer issues, performance expectations, and competing operational priorities.
- Used performance data, CRM-driven outreach, staff development, and process improvements to increase client retention by 32% and scale monthly location revenue from approximately \$4,000–\$5,000 to more than \$20,000 within 13 months (4x+ increase).

## SELECTED PROJECT EXPERIENCE

**Vocari | AI-Assisted Career Development Platform** — Planned and iteratively executed a multi-stage product project spanning research, requirements, information architecture, prototyping, participant testing, feedback tracking, and refinement.

**Joomla Extension Directory Redesign** — Managed a structured research and design project using stakeholder interviews, surveys, heuristic evaluation, competitive analysis, and evidence-based recommendations within real platform constraints.

## EDUCATION & CREDENTIALS

**Master of Business and Science (MBS)**, Product Design & Innovation | Rutgers University | Expected Dec 2026 | GPA: 3.7

Applied study in project management, systems thinking, data analysis, business strategy, product design, research, information architecture, and technology-enabled innovation.

**Bachelor of Arts**, Psychology; Minor in Sociology | Rutgers University | 2023
